

SHRUBBN!! & TRANSFORMA - ECHOS (AV Concert) - 2012

TECHNICAL RIDER

WHAT WE NEED ON STAGE:

- 1 solid table/drum riser (2 x 1m surface / 70cm – 80cm high)
- 2 chairs (because we are sitting!!)
- 1 mackie 1604 vlz pro or mackie 1402 vlz pro (and nothing else!!)
(lets say that again: and nothing else!!)
- 2 DI-boxes (for the mackie)
- 4 electrical power points !! 220V EU plugs (some call them SCHUKO)
- massive stereo-monitoring!! (that means: we need volume!! and bass!!
we need bass!! so the monitoring should include sub speakers!!)

WHAT YOU GET FROM STAGE:

- 1 stereo signal from the mackie (DI needed)

LIGHTS:

- dark with the tendency to none!!
- 0-1 colors maximum!!

VIDEO:

- the video will be positioned at FOH (front of house)!
please be sure there is enough space for equipment (min. 80cm x 50 cm)
- 1 x 10.000 ANSI lumen video projector (Barco CLM R10 or similar, please make
sure the projector is sufficient for the size of the venue)
- 1 x VGA connection from the projector to FOH
- 1 x 16:9 projection screen. (Optimal size = size of the Stage)
- 2 x electrical power points 220V EU plugs (SCHUKO)

SHOW:

- app. 50 min
- two people on stage, one at FOH

BACKSTAGE:

Yes!! We need a backstage room!!

The things that should be in it are listed on our HOSPITALITY RIDER!!

THANK YOU!!
